Our goal is to have a flavour option for everyone and to provide information to make informed decisions about our range. We offer dairy and dairy-free gelato along with sorbets. Our gelato is handmade daily with a focus on quality using the freshest South Australian produce.

We do our best not to cross contaminate our gelato, however allergens may be present in all our products and contain traces of gluten and other allergens such as egg, soy, peanuts, tree nuts, sesame, and milk.

Our Food Safety Program has processes to reduce and control potential cross contamination of known allergens, but we cannot guarantee that our products do not contain traces of allergens as we operate in an artisan environment from a central kitchen.

Please see below for our full list of allergens.
